## LUIS ROSENDO GARCIA HERRERA

Junior Software Engineer

I'm Rosendo, a web developer from San Miguel, El Salvador, with solid experience creating backend solutions in JavaScript. My approach focuses on merging functionality with elegance to drive project success. Throughout my career, I have demonstrated my commitment to innovation and continuous improvement, qualities that I am excited to bring to your company.

## MOST RECENT WORK EXPERIENCE

- November - December 2023

Sales Advisor at Par2 (shoes store)

Engaged in customer-centric roles at a prominent shoe store. Primarily focused on delivering exceptional service, handling inquiries, and facilitating sales.

- November - December 2022

Sales Advisor at Gas station Texaco

Managed transactions and provided customer service at a bustling gas station. Responsibilities included fuel dispensing, payment processing, and ensuring a positive customer experience.

## SKILLS

- HTML
- CSS
- JavaScript
- Node
- TypeScript
- Express.js
- TailwindCSS
- React
- Astro

## EDUCATION

I earned an Associate Degree in Software Development Engineering from ITCA Fepade San Miguel, forming my educational foundation. Fueled by a passion for learning, I expanded my knowledge independently, delving into JavaScript fundamentals and building RESTful APIs with Express through GitHub and YouTube tutorials, including Midudev's courses. This mix of formal education and online learning enhances my grasp of software development.

### Software Engineer at ITCA Fepade

February 2022 - November 2023 [San Miguel, El Salvador]

## LANGUAGES

English. (B2 - EF SET)
