Resume

Software Developer focused on backend solutions using Node.js and C#. I currently work in customer support for a U.S.-based digital platform, providing support entirely in English and assisting with basic technical issues. My passion for technology and clear communication allows me to adapt to both software development and digital support roles. I am committed to continuous professional growth by combining my technical expertise with hands-on customer support experience.

Experience

- | | |
|---|---------------------|
| US Customer , <i>Virtual Customer Service Assistant</i> – USA | Nov 2024 – present |
| <ul style="list-style-type: none">◦ Provided real-time customer support in English to U.S.-based clients through a digital platform.◦ Resolved customer issues, reported software bugs, and collaborated on service improvements.◦ Delivered prompt, professional, and effective customer communication. | |
| Local Clinic , <i>Freelancer</i> – San Miguel, El Salvador | May 2025 – Aug 2025 |
| <ul style="list-style-type: none">◦ Maintained and enhanced a PHP application used daily by clinical and administrative staff.◦ Administered and maintained a Windows-based XAMPP server running Apache, PHP, and MariaDB.◦ Replicated the production environment locally to validate changes before deployment, reducing operational risks and minimizing downtime.◦ Performed database backups prior to deployments, optimized SQL queries, and updated table structures based on business requirements.◦ Reviewed Apache logs and adjusted PHP server configuration to meet application requirements.◦ Delivered both frontend and backend implementations while supporting the daily operations of multiple physicians and administrative staff. | |
| Par2 , <i>Sales Advisor</i> – San Miguel, El Salvador | Nov 2022 – Dec 2022 |
| Texaco , <i>Sales Advisor</i> – San Miguel, El Salvador | Nov 2021 – Dec 2021 |

Education
